

Kleenco Construction is a general contracting and self-performing paving and maintenance company equipped to handle all types of facility repairs ranging from the day-to-day facility repairs to large build-outs, remodels and abatements. Below is a list of our many services and certifications. If your need is not listed contact us – We CAN Help!

Why waste time and money with companies who lack the training and experience necessary to handle your projects efficiently and effectively? We have industry expertise in: hospitality, retail, restaurant and apartment housing, property management, hospitals, universities, commercial and industrial building maintenance.
